Detox / Withdrawal Management

Crisis and Recovery Center - Jefferson Center for Mental Health (open 24/7/365)
303-463-7400
4643 Wadsworth Blvd., Wheat Ridge, CO 80033
https://www.jcmh.org/?s=withdrawal
- The primary goals of the withdrawal management program are to monitor patients as they safely withdraw from drugs and/or alcohol, assist in increasing motivation for change so ongoing recovery is possible, actively link patients to services for ongoing care, and provide a safety net for the community.
- Brief Admission Criteria
  - 18 years or older
  - Intoxicated or under the influence of alcohol and/or drugs or in withdrawal.
  - Must not require medical care while in detox.

jcmh.org | 303-425-0300
Updated: May 2020
o Must be mobile and able to provide for their own personal care
o The individual should not be physically violent

- Accepts Medicaid, some private insurance, and self-pay. Fees are based on daily rates for a calendar day or any part of a calendar day.

**Denver CARES Detoxification and Drug and Alcohol Rehabilitation (open 24/7/365)**

303-436-3500  *To report a publicly-intoxicated individual for pick-up, call dispatch at 720-913-2200*

1155 Cherokee St., Denver, CO

http://www.denverhealth.org/medical-services/mental-health/our-services/denver-cares

- Denver CARES is a non-medical, clinically managed treatment facility
- Services:
  - Emergency Services Patrol (ESP) picks up public inebriates throughout the city of Denver and safely transports them to CARES. ESP responds to police requests, community calls, Denver Health ER and also regularly established travel routes.
  - Detoxification Services provide a safe detox for public inebriates, and to provide assessment, education, motivational counseling and residential treatment. All clients are provided sleeping accommodations and well-balanced meals during their stay.
- Residential treatment is available for substance dependent men and women. Length of stay varies from 45 to 90 days. Services include individual and group counseling, alcohol and drug education, relapse prevention, life skills training, access to 12-step support group meetings and referrals to ongoing social services.

**Search Tools for Treatment**

**Addiction Treatment Search**

1-800-591-6474

www.addictionsearch.com

- Services provided: Addiction Search is your source for addiction related research on drug rehabilitation and alcohol treatment programs, treatment centers and addiction recovery information

**SAMHSA: Substance Abuse and Mental Health Services Administration**

1-800-662-HELP (4357)

http://www.samhsa.gov/

- Services provided: Go to treatment locations on the home page, select the option where you can access a substance abuse treatment facility locator in your area. You are able to specify the type of treatment (detox, outpatient, etc.) and payment type.

**Signal Behavioral Health**

303-639-9320

www.signalbhn.org

- Services provided: Please call for treatment referrals in the Denver metro area. Spanish speaking services available.

**National Institute on Drug Abuse**

https://www.drugabuse.gov/

- Information about substances, research and funding
Drug Testing

Wiz Quiz:
303-914-1045
7585 W Arkansas Suite B Lakewood, CO. 80215
www.wiz-quiz.com
- Walk-in screening for the Lakewood and surround areas is welcome.
  - Clients need only bring their form and a valid Federal or State picture ID for fast and easy service.
  - Additional services we provide are Mobile Collections, Random Call-in and on-site Urine Scans, as well as Breath-alcohol Testing, Antabuse Monitoring, and Hair Follicle.
- Payment options: Private pay only – $25. Cash or credit card, no checks
- Monday – Friday, 8:30am – 8:00pm; Saturday by appointment

5280 Drug Testing Company
720-476-4970
6059 S. Quebec St., #100, Greenwood Village, CO 80111
http://www.5280drugtesting.com
- Drug Testing: We will customize the panel dependent upon the situation. 5 panel to 17 panel. Drug panels can include ETG. Drug testing windows of detection vary. Same day and lab-based urine and oral results available.
- Alcohol Testing: ETG (Ethyl Glucuronide); this is a direct metabolite produced by the ingestion of ethanol alcohol; urine ETG has a window of detection of approximately 72-80 hours. Same day and lab-based urine results available.
- Hair Follicle Testing: Panel can be customized to include drugs and alcohol (ETG); window of detection approximately 90 days for head hair and up to 1 year for body hair.
- Fingernail and Toenail Testing: Panel can be customized to include drugs and alcohol (ETG); window of detection approximately 3-6 months for fingernails and 6-9 months for toenails
- PEth Testing: (Phosphatidylethanol); this blood test uses a direct alcohol biomarker to indicate exposure to alcohol going back 2-4 weeks. This test is an accurate indicator of intentional excessive, prolonged or binge use of alcohol and cannot be affected by incidental topical exposure, such as isopropyl alcohol swabs or hand sanitizer.
- ChildGuard® Hair Exposure Testing: Typical hair tests will only report a positive exposure result if drug metabolites are detected, even when the native drug is in the child’s hair specimen. ChildGuard® reports a positive result if either native drugs or drug metabolites are detected, giving much better insight about the child’s environment. ChildGuard® can provide evidence of substance use in a child’s environment for the past 3 months and can be performed on donors of any age. 5, 7 & 9 panel.
- Provides services for probation, DUI and other court related cases but does not offer services to violent criminals or sex offenders.
