Health First Colorado (Medicaid) – Dental Benefits Overview

<https://hcpf.colorado.gov/dental-benefits>

Dental services are a program benefit for enrolled [Health First Colorado](#) (Colorado's Medicaid program) members of all ages.

What does the dental benefit cover?

See the [Children's Dental Benefits](#) page for more information about benefits for Health First Colorado members under age 21.

The adult dental benefit is available to eligible adult Health First Colorado members (21 and over) and covers:

- Annual dental exams and cleanings
- Diagnostic and restorative dental services (such as x-rays and fillings)
- Extractions (tooth pulling)
- Root canals *
- Crowns*
- Partial dentures*
- Complete dentures*
- Periodontal scaling*
- Other procedures requiring *prior authorization are also available.

The replacement of lost, stolen, or unrepairable broken dentures are a **once per member lifetime** benefit.

Background

Historically, Health First Colorado has covered dental services for children, but not for adults. Lack of preventive dental coverage can contribute to a range of serious health complications and drives Health First Colorado costs for both emergency and medical services.

Effective July 1, 2023 adult members can receive dental services with no annual limit.
