Overview

What is the Colorado Medicaid Vision Services Benefit?

Vision services covered by Colorado Medicaid differ between children and adults. If you are enrolled in a managed health care plan, you may have additional benefits not listed below.

Who is eligible?

- Children (age 20 and under): The [Early Periodic Screening Diagnosis and Treatment \(EPSDT\) Program](#) provides vision benefits such as standard eyeglasses, replacement or repair of frames or lenses, contact lenses (must be medically necessary), ocular prosthetics, and eye exams.
- Adults (age 21 and older): Annual eye examinations, with eyeglasses and contact lenses covered ONLY following eye surgery. Does not require prior authorization, and surgery may have been performed at any time during the patient’s life.

How often can glasses be replaced or repaired?

- Repair of eyeglasses is covered only when due to broken frames or lenses.
- Replacement glasses shall be provided when medically necessary or when the glasses are damaged to the extent that repairs are not cost effective.
- Contact lens supplies and contact lens insurance are not benefits.
