

# Jefferson Center Youth Residential Recovery Program (YRRP)

Jefferson Center is here to provide compassionate and evidence-based care to address substance use and co-occurring mental health disorders for youth ages 13-18 ½. Recognized as an ASAM Level 3.5 High-Intensity Residential Program, our team provides an integrated healthcare approach in a safe and secure residential community-based setting.

## Compassionate and Effective Treatment

Your teen's well-being and recovery is our top priority. Our expert team follows evidence-based practices, including Trauma-Informed Care, Motivational Interviewing, and Cognitive Behavioral Therapy. With personalized therapy sessions and group activities, we create a safe and nurturing environment for their recovery.

### Program Highlights:

- **Comprehensive Substance Abuse Assessment**
- **Multi-Disciplinary Team of Experts**
- **Recreational Activities and Medication-Assisted Treatment**
- **Dedicated Education Support via [Jefferson Hills Academy](#)**

## Dedicated Support for Your Child and Family

We understand the impact on families, and that's why we emphasize family engagement.

Together, we'll work towards lasting change and recovery by providing a stable and trauma-informed environment, promoting positive relationships and personal growth.
